

**Nearly 100 Australians die every day from sudden cardiac arrest. This includes kids, teenagers & fit people.**

**There is a solution. A Defibrillator!**

Risk Management Essentials (RME) have partnered with Heart 180 and Director, Guy Leech. We share the same passion and understand the importance for all Australians to have greater access to defibrillators (defib machines). We want to raise awareness around accessibility to defib machines, how easy they are to use and that all homes, workplaces, sporting clubs etc should have one readily available.

## **General Facts and Statistics:**

In Australia, around 30,000 people suffer a Sudden Cardiac Arrest (SCA) each year (that is around 100 people per day and of all ages). Only around 6% of these people survive because there wasn't a defib close by. If you can get a defib on the patient in the first 180 seconds you increase the chance of survival to over 70%.

Without a defibrillation, for every minute that passes, the chance of survival is reduced by 10%. Application of pads on patient within 180 seconds increases the survival rate to over 70%. With Good CPR and a defib up to 90% survival rate.

We want to raise the education levels around critical heart care, so all realise how easy and safe defibrillators are to use and have readily available.

Defibrillators are not subject to GST and include an online training, confidence and awareness course (which takes around 15 minutes).

If you don't already have a defibrillator at your workplace, we would appreciate the opportunity to meet with you.

We look forward to speaking with you soon.

**TRAINED FIRST AIDER**

**HEARTSINE 350P  
DEFIBRILLATOR**

**COST: \$2,195.00**

The HeartSine 350P is a portable, lightweight, AED. With easy-to-understand visual and voice prompts, the 350P will guide you or the rescuer through the entire resuscitation process.

**MOST POPULAR**

**HEARTSINE 360P  
DEFIBRILLATOR**

**COST: \$2,195.00**

The HeartSine 360P is a portable, lightweight, fully automatic AED. With easy-to-understand visual and voice prompts, the 360P will guide you or the rescuer through the entire resuscitation process.

**WITH CPR COACHING**

**HEARTSINE 500P  
DEFIBRILLATOR**

**COST: \$2,695.00**

This simple defibrillator is packed with features that makes saving a life easier. Despite this, the 500P weighs only 1.1kg and can fit in your glovebox, handbag or backpack. Its IP56 rating offers unmatched ruggedness.

**RME Recommended**

**MOST ADVANCED**

**LIFEPAK CR2 FULLY  
AUTO DEFIBRILLATOR**

**COST: \$2,495.00**

The LIFEPAK CR2 Essential uses simple graphics, audible instructions and automated features to help users remain focused and in control.

**RME Recommended**

**SELF MAINTAINED**

**LIFEPAK CR2 WIFI  
DEFIBRILLATOR**

**COST: \$2,995.00**

Simple graphics, audible instructions and automated features to help users remain focused and in control. With Wi-Fi connectivity, you'll never have to worry that your AED is ready to use in an emergency.
